

## LTE Bandstop & GSM Filter

09ALTEFL

LTE Television Interference Filters pass up to Ch 51 (channel blocks A to E or 694MHz) whilst rolling off everything above Ch 51 by up to 60dB.

With high attenuation at the right frequency, LTE filters solve LTE interference problems and have already been proven to eliminate television interference from sources including GSM/4G networks.

### Features

- Plastic insulated Metal Housing
- Connector: 75 Ohm female to male Pal with 10cm lead
- LTE bandstop filter
- LTE GSM filter
