SignalMAX

PROFESSIONAL

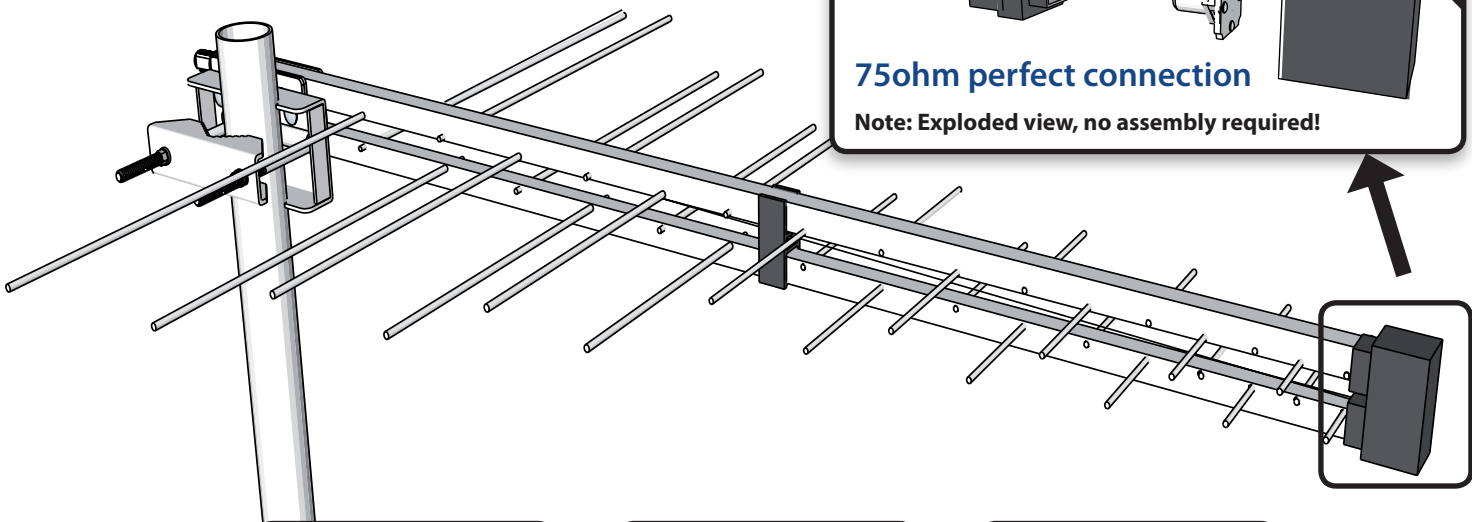

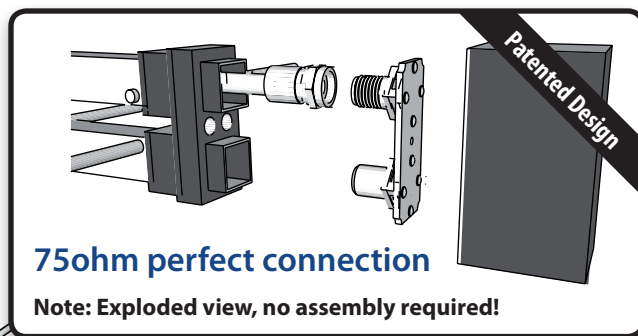

Italian Made Log Periodic ANTLP34SM

Made in Italy

The SignalMAX Professional ANTLP34SM log periodic antenna is the perfect multiband antenna. Made in Italy, using premium grade non-recycled aluminium, on a computer controlled machine with 0.1mm tolerances, SignalMAX delivers the perfect log periodic antenna. High gain and high return loss ensures excellent performance between channels 6 and 40.

The ANTLP34SM features a patented connection system using 75ohm F connections at both ends of the termination, ensuring best-in-class impedance matching and highest return loss, for optimum signal transmission.

x10
TRADE PACK

Superior
Return Loss

A-Grade
ALUMINIUM

Description	Specification
Gain	9dB
F/B Ratio	24dB
Elements	32
Package Contents	x10 - Antennas x10 - Weather boots

- 32 element log periodic design
- Horizontal mounting
- Flat signal response for Australian channels
- High efficiency construction and design
- Machine constructed in Italy
- A-grade aluminium alloy
- Dual internal F-terminations
