

ARCHITECTURAL CEILING SPEAKERS

ACS3.0

The new ACS3.0 is a full range in-ceiling speaker designed to produce audiophile quality sound and occupy a very compact space (2 9/16" x 2 15/16"). The self-enclosed new ACS3.0 ultracompact speaker is an ideal choice for background music. It can effortlessly produce full range music without strain.

With its resemblance to a ceiling recessed spot light, and with paintable grille and frame, the ACS3.0 can invisibly blend with its surrounding. Whether you want background/ambient music or practical enhancement to your surround sound, the ACS3.0 In-Ceiling speaker is the ideal speaker for the job.

Mounting is as Easy as 1..2..3... Cut the mounting hole, connect the ACS3.0 using the easy connect push terminals and snap the speaker in place. The built-in mounting clips system will do the rest.

ACS3.0 FEATURES:

- Compact with paintable grille and frame
- Easy-connect push terminals
- Mounting clips or snappy installation
- Power handling 45 Watts
- Impedance 8-Ohm
- Frequency response 150Hz-20kHz
